VI. *An Account of what happened to a Child on ſwallowing two Copper Farthings. Communicated by Dr.* Edward Baynard, *Fellow of the College of Phyſitians.*

I Living then in *Worceſter*, my Son *William Underhill*, aged about Three Years, ſwallowed by accident two Copper Farthings, but half a Year one after the other. Upon the firſt Farthing, he eat nothing for ten Days, and complained of a great Pain at his Stomach, and drivel'd as if he had been ſalivated; and often ſaid he had a nauſeous venomous Taſte in his Mouth, the Farthing not coming from him in half a Year. After the ſwallowing of the ſecond Farthing he began by Degrees to loſe his Limbs, his Breaſt growing narrow, and the Child Conſumptive; who was after perfectly cured by the Bath, and his Breaſt dilated and grew broad as before. This happening about Ten Years ſince, theſe are moſt of the Particulars I can remember. Witneſs my Hand,

Her. Underhill.
